

DOCUMENTATION – CUTE LOW POLY FURNITURE PACK

(For Unity)

1. Overview

Cute Low Poly Furniture Pack is a stylized 3D asset pack optimized for game development, especially suitable for mobile platforms and colorful, cartoon-style environments.

This package includes:

- A variety of low poly furniture models
 - Ready-to-use prefabs
 - 12 fully assembled room setups
 - 2 demo scenes
 - Custom stylized shader
-

2. Folder Structure

Assets/

```
└─ CuteMagic_Free/

```

Model

- Contains all original mesh files (3D models)
 - Use these if you need to modify or customize assets
-

Prefab

Scenes

- **Demo Room**

Shader & Materials

- **Include: ShaderMaster and ShaderTexture / Materials**
-

3. Shader Features

This asset uses a custom stylized shader with the following features:

- **Stylized toon (cel) shading**
 - Adjustable light threshold
 - Adjustable shadow softness
- **Shadow tinting**
 - Enhances visual style and color depth
- **Normal map support**
 - Adds additional surface detail
- **Packed PBR mask support**
 - Includes:
 - Metallic
 - Ambient Occlusion
 - Roughness
- **Optimized for URP (Universal Render Pipeline)**
 - Lightweight and performance-friendly
- **Designed for:**
 - Stylized games
 - Colorful environments
 - Mobile platforms

5. Optimization

- Low poly
- Game-ready assets
- Mobile-friendly

- Lightweight shader (URP optimized)
